

# Update on California's Pandemic Roadmap

### 6 Indicators for Modifying Stay-at-Home Order

 Ability to test, contact trace, isolate, and support the exposed

Therapeutic development to meet the demand

 Ability to protect those at high risk for COVID-19  Ability of businesses, schools, and childcare facilities to support physical distancing

 Surge capacity for hospital and health systems  Determination of when to reinstitute measures like Stay-At-Home

### California Hospitalization Trend Lines

### The Basics

COVID-19 is not going away soon.

Modifications to Stay-At-Home Order must be guided by health risk and a commitment to equity.

Taking responsibility is key at all levels – individual, business, and government.

### Resilience Roadmap Stages

#### STAGE 1: Safety and Preparedness

Making essential workforce environment as safe as possible.

#### STAGE 2: Lower Risk Workplaces

Creating opportunities for lower risk sectors to adapt and re-open.

Modified school programs and childcare re-open.

#### STAGE 3: Higher Risk Workplaces

Creating opportunities for higher risk sectors to adapt and re-open.

#### STAGE 4: End of Stay-At-Home Order

Return to expanded workforce in highest risk workplaces.

Requires
Therapeutics.

### Stage 1: Safety and Preparedness

#### This is where we are now.

- Continue to build out testing, contact tracing, PPE, and hospital surge capacity.
- Continue to make essential workplaces as safe as possible.
  - Physical and work flow adaption
  - Essential workforce safety net
  - Make PPE more widely available
  - Individual behavior changes
- Prepare sector-by-sector safety guidelines for expanded workforce.

### Stage 2: Lower Risk Workplaces

## Gradually opening some lower risk workplaces with ADAPTATIONS:

- Retail (e.g. curbside pickup)
- Manufacturing
- Offices (when telework not possible)
- Opening more public spaces

#### **Expanded Workforce Safety Net:**

Wage replacement so workers can stay home when sick

### Stage 2: Lower Risk Workplaces

#### Schools and Childcare Facilities with Adaptations:

- Summer programs and next school year potentially starting sooner (July/August)
- Childcare facilities to provide more care
- Address learning gaps
- Ensure students and staff are protected
- Allow broader workforce to return to work

### Actions needed to get from Stage 1 to Stage 2

#### **Government Actions**

- Policies that allow people to stay home when they're sick
- Guidance provided on how to reduce risk

#### **Business Actions**

- Wage replacement so workers can stay home when sick
- Implement adaptations to lower-risk workplaces NOW
- Employees continue to work from home when possible

#### **Individual Actions**

- Safety precautions physical distancing, face coverings, etc.
- Avoid all non-essential travel
- Support and care for people who are at high risk

### When are we ready for Stage 2?

#### Key indicator considerations to move to Stage 2:

- Hospitalization and ICU trends stable.
- Hospital surge capacity to meet demand.
- Sufficient PPE supply to meet demand.
- Sufficient testing capacity to meet demand.
- Contact tracing capacity statewide.

Transition to Stage 2 will occur through a <u>statewide</u> modification to the Stay-At-Home Order.

### Opportunity for Regional Variations

During Stage 2, counties may choose to relax stricter local orders at their own pace.

Following Stage 2, once a statewide COVID-19 surveillance system is made possible through testing, further regional variations could be supported.

State will consult and collaborate closely with local governments.

## Stage 3: Higher Risk Workplaces

Open higher risk environments with adaptations and limits on size of gatherings:

- Personal care (hair and nail salons, gyms)
- Entertainment venues (movie theaters, sports without live audiences)
- In-person religious services (churches, weddings)

## Stage 4: End of Stay-At-Home Order

Re-open highest risk workplaces with all indicators satisfied once therapeutics have been developed:

- Concerts
- Convention Centers
- Live audience sports

### Be Part of the Solution

Stay Home. Practice Physical Distancing.

We are enlisting all Californians to help inform the development of guidance for sectors across our economy.

This guidance will provide a framework for how to safely re-open.
